

Success story of my son (Atul Chaturvedi)

Like all other parents, I dreamt of seeing my son as an IITian. He was not so cautious about his career, but as he entered class XI I told him about my wish. He said OK I am ready to fight.

Then we started our journey to get the best mentors. For this we not only went to Raipur but Bhilai, Korba & Kota too. When I met the Kota Returned students, I found them all very much disappointed with their performance, they all had lost their Confidence. Over crowded classes, Lack of personal attention and unsatisfactory doubt removal were the big faults of their institutions. Earlier we wanted individual subject tutors for best result, but later we came to know that it is just wandering Door to Door and wasting money energy & time, finally the result will just be nil due to heavy exertion & non-coordination among the subject teachers, pupil could do nothing more than resting in the remaining day and preparing his/her bag etc. for the next class.

We went to Rajeev Sir's IITPMT.COM for enquiry and really much influenced and motivated by his words. We also talked to most of their old students who had secured ranks in various competitive exams like AIPMT, CGPMT, IIT & AIEEE. They told us about the methodology of the institute

which is truly coaching & not just a teaching.

My son attended few of their classes & found them really crystal clear approach in each subject. But as the nature of human being we wanted the best so to get more we wandered every other institute and also saw their classes too. Ultimately we got in the conclusion

Winner IIT JEE

that only IITPMT.COM is the institute with perfect guidelines to an IIT aspirant, best accommodation, very small batches of max. twenty students for personal attention to each single student of the batch, personal doubt clearing classes whenever the student want, strive of tutors much more than the student to give them the best, simplifying each subjects to understand the

concept easily.

With the genius approach & proper mentoring of the tutors specially Rajeev sir's, my son Atul got the rank in IIT and fulfilled my dream to see him as an IITian. Complete batch selected purely in main merit list no extended merit list (EML). Selection in EML is not the selection in IIT

I really want to thank Rajeev Sir for giving him realistic view of life to achieve his goal much easily. Thanks sir, thanks a lot.
